CONFERENCE

RECHARGE
WindPower Summit
Asia-Pacific
Powered by WindEnergy Hamburg

Key topics

- How shifting policies in key markets are reshaping global wind investment and supply chains.
- Asia's rising role as a stable growth engine amid global uncertainty.
- How global developers and OEMs are reshaping their strategies amid cost pressures and shifting policies
- Evolving funding models and instruments to support large-scale wind deployment.
- The role of Asia's capital markets and development finance in accelerating global wind growth.
- Advancing turbine design, materials, and manufacturing to drive efficiency and reliability.
- Digitalisation, automation, and AI as enablers of smarter operations and lower costs.
- Managing risk and resilience across complex supply networks.
- Technical challenges of connecting large-scale wind to existing grids.
- Grid stability, frequency regulation, and managing variability.

Top speakers

Dr. Tan See Leng
Ministry of Trade and Industry, Government of Singapore

Dr. Bettina Fanghänel
Embassy of the Federal Republic of Germany to Singapore

Leif Trana
Royal Norwegian Embassy in Singapore

Nat Hutanuwatr

SOLUTIONS STAGE

RECHARGE
WindPower Summit
Asia-Pacific
Powered by WindEnergy Hamburg

Date/Time	19 May	20 May
10:00 - 10:15	Closed	
10:15 - 10:30		
10:30 - 10:45		AWEA Session 4: South Korea
10:45 - 11:00	BETZ GmbH	
11:00 - 11:15	AWEA Session 1: Philippines	
11:15 - 11:30		
11:30 - 11:45		AWEA Session 5: Taiwan
11:45 - 12:00		
12:00 - 12:15		
12:15 - 12:30		
Lunch Break		
13:30 - 13:45	AWEA Session 2: Vietnam	AWEA Session 6: Australia
13: 45 - 14:00		
14:00 - 14:15		
14:15 - 14:30		
14:30 - 14:45	AWEA Session 3: Japan	
14:45 - 15:00		
15:00 - 15:15		
15:15 - 15:30		
15:30 - 15:45	WFO / Mooreast / Viridian Maritime	
15:45 - 16:00		
16:00 - 16:15		
16:15 - 16:30		

On the **Solutions Stage** in the exhibition hall, visitors gained insights into all areas of wind energy. Questions could be answered directly, and ideas were exchanged in personal discussions with industry experts.

Exhibitors presented their product highlights, innovations, and latest developments.

Industry associations such as WFO and AWEA organized sessions and presented market updates from the Philippines, Vietnam, Japan, South Korea, Taiwan and Australia.

ATTENDEE FEEDBACK

RECHARGE
Wind Power Summit
Asia-Pacific

"Currently this appears to be the best entrance into the APAC Wind market, providing information across the whole value chain (from project financing, to operations and maintenance)."

"Great networking opportunities and innovative insights from well selected panelists."

"Perfect business location in the center of Singapore."

"Top business people from Europe attended the event. Attendees were highly knowledgeable."

TESTIMONIALS

Congratulations on the great success of the first APAC event. It was an honour to be part of the programme, and I am confident that even more participants will join the next edition in 2027.
Sayuri Watanabe, Head Asia Pacific & Japan Representative, World Forum Offshore Wind

Many thanks for this great event. You and your team have done a brilliant job. Looking forward to working together on the next event in 2027.
Dennis Rendschmidt, Managing Director, VDMA Power Systems

As one of the very few wind developers in Singapore and Southeast Asia, I can say that this initiative has been long awaited.
Olivier Duguet, CEO, The Blue Circle

The platform is truly valuable for industry exchange. I gained a lot from the insightful discussions, smooth organisation, and welcoming atmosphere.
Kang Jian, General Manager of Overseas Department, Dongfang Electric Wind Power Co., Ltd

It was inspiring to connect and exchange ideas with so many industry leaders, and to see such dedication and enthusiasm for advancing the wind sector in Asia-Pacific.
Min Yang, Head of Onshore Engineering Asia-Pacific, Siemens Gamesa

The event was a success, especially considering how quickly it was organised and that it is still in its early stages. We are happy to continue supporting you in the future.
Philipp Tremer, Project Manager, German Offshore Wind Foundation

WHY APAC?

WindEnergy Asia-Pacific
Powered by RECHARGE

- The **Asian market is booming** – China, South Korea, Vietnam, Japan, Taiwan and India are investing heavily in renewable energy and offshore wind development.
- Singapore as a **stable hub for Southeast Asia**: politically secure, economically open, and with ideal infrastructure for business events.
- **No other event** brings together the entire Asia-Pacific wind industry on one dedicated B2B platform.
- **Extending the WindEnergy Hamburg ecosystem**: WindEnergy Asia-Pacificc creates year-round visibility and engagement while complementing, rather than competing with, WindEnergy Hamburg.
- **Bridge** between Asian and European decision-makers, developers and investors.
- Full **government support** by Singapore

Strategic Opportunities

Industrial opportunities: Export, supply chains, market opening
The events aim to better connect international and regional supply chains for onshore and offshore wind energy. This includes manufacturers, suppliers, project developers, investors and operators.

Knowledge transfer
The formats in Singapore are deliberately designed to address policy dialogue, standardization, security, innovation and training.

Joining APAC creates a **new bridgehead for international industry communication** in an environment where the energy policy course for the next decade is being set.

WHY SINGAPORE?

Strategic Location & Connectivity

Singapore connects key wind markets in South, East, and Southeast Asia and is located on important energy and trade routes. Singapore is easily accessible internationally and one of the safest cities in the world.

Economic Strength & Industry Hub

As one of Asia's leading business centers, Singapore is home to major companies from the offshore, maritime and energy sectors.

Technological Excellence

Singapore offers world-class expertise in floating wind, submarine cables, offshore engineering and maritime logistics.

Proven Event Destination

Major international events such as Sea Asia, APM and SIEW highlight Singapore's strong track record as a global meeting and business platform.

Government Support & Sustainability Goals

Strong support from government agencies and a clear commitment to the energy transition create a favorable environment for industry growth and collaboration.

Excellent global networking

Singapore brings together developers, investors, policymakers, technology providers and industry leaders from across the Asia-Pacific region.

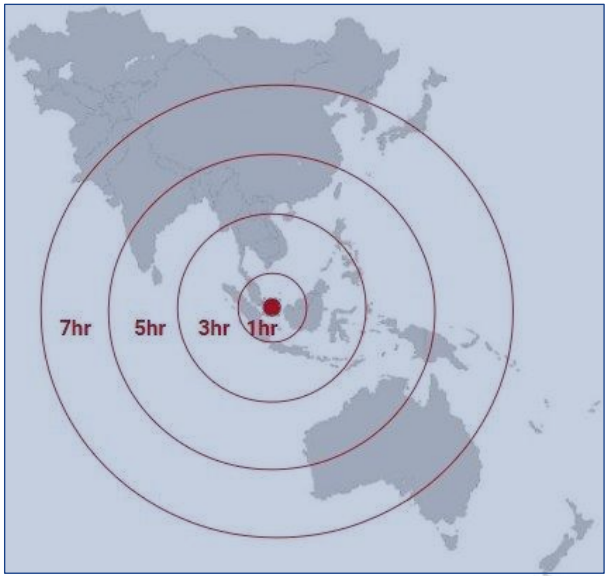
WHY SINGAPORE?

WindEnergy Asia-Pacific
Powered by RECHARGE

Access to key renewable energy markets within a **7-hour flight radius**, supported by world-class connectivity, infrastructure and logistics.

Proven host of major international trade shows and industry events for offshore, energy and infrastructure events, including Singapore Maritime Week, Sea Asia, OSEA, the World Cities Summit and Singapore International Energy Week

Preferred regional hub for a growing number of global offshore wind companies, supported by leading expertise in financing, engineering, innovation and supply chain management.



WINDENERGY ASIA-PACIFIC 2027
POWERED BY RECHARGE

From **25 to 27 May 2027**, Singapore will once again become the meeting point for the wind energy industry in the Asia-Pacific region. **WindEnergy Asia-Pacific 2027 powered by RECHARGE** will take place at the renowned **Marina Bay Sands Convention & Exhibition Centre**.
